

WHO SHOULD ATTEND?

Operators and persons responsible for the maintenance and upkeep of ITW Gema electrostatic powder coating systems will benefit from this course. Companies that want their employees to learn proper and efficient application techniques, as well as troubleshooting and maintenance skills, should attend.

Our Teaching Philosophy

Attendees will learn how the equipment is designed to work, then how to use and maintain it. This class consists of a lecture conducted by an ITW Gema Technical Specialist and hands-on applications work in our lab with the ITW Gema Sales Lab Team.

How to Register

Register online at www.itwgema.us or complete the attached registration form and return it to ITW Gema with your payment. Classroom and lab space is limited, so send in your registration today!
